Wills

Prices as @ 6th December 2018

Costs of Wills

Nobody wants to think about it, but making a Will is one of the most important things you will ever do.

We make Wills for people from every background and in every stage of life, including older and vulnerable individuals, divorcees, business and land owners, from first time buyers to retired people.

We can help you through this process.

How much does this service cost?

Single Wills

Our costs for dealing with your **Simple** Will are £175 plus VAT. However, this amount may increase if substantial amendments are made and re-drafts are necessary.

Our costs for dealing with **Complex** Single Wills - which can incorporate Discretionary and Property Protection Trusts range from £250 to £400 plus VAT

Mirror Wills

Our costs for dealing with **Simple** Mirror Wills are £295 plus VAT. However this amount may increase if substantial amendments are made and re-drafts are necessary.

Our costs for dealing with **Complex** Mirror Wills - incorporating Discretionary and Property Protection Trusts range from £350 to £600 plus VAT.

Please Note:

Our costs are calculated on the basis that you will be attending the office to sign your Will, which is our normal and preferred practice.

If you are unable to do so then we can either arrange to visit you at home - subject to an additional charge of:

Home Visits – costs to cover travel time and fuel	
0-5 Miles from the office	£5 each way = £20 extra
5-10 Miles from the office	£10 each way = £40 extra
Over 10 miles from the office	£1 per mile each way

OR,

We can send the Will to you with instructions for signing.
